## ACTION PROGRAMME

# 2015

## **Moray Local Development Plan**

### **Moray Local Development Plan Action Programme**

This Action Programme supports the delivery of the Moray Local Development Plan. Section 21 of the Planning etc (Scotland) Act 2006 requires Planning Authorities to prepare an Action Programme. The Action Programme sets out the actions that are necessary to implement the strategy and policies of the plan. The Action Programme sets out

- A list of actions required to deliver each of the plan's policies and proposals
- The name of the person who will carry out the action and
- The indicative timescale for carrying out each action

The Moray Local Development Plan Action Programme does not repeat the requirements set out in the designation or policy text. The Action Programme focuses on the actions required to overcome key constraints and issues that require joint or co-ordinated action from several parties or sites.

The Moray Local Development Plan Action Programme is in four parts

1. Vision Actions
2. Policy Actions
3. Essential Settlement Infrastructure
4. Site/Settlement Actions

Circular 1/2009 requires Planning Authorities to consult and consider the views of the Key Agencies, the Scottish Ministers, and anyone specified in the Action Programme. The Action Programme has been prepared initially from consultation responses to bid proposals and the Main Issues Report. Further consultation was undertaken with internal and external stakeholders as part of the consultation on the Proposed Moray Local Development Plan. Amendments to the Action Programme have been made to reflect comments made by consultees.

The Action Programme will be updated every two years.

## 1. Vision Actions

Vision	Action
A growing population, which retains more of its younger people and attracts new residents to the area.	LDP supports this aim by identifying housing land designations to support a growing population.
	LDP supports this aim by identifying employment land designations to support a growing economy.
	LDP supports this aim through the Primary Policy PP1 Sustainable Economic Growth which supports proposals that assist in the delivery of the aims of the Moray Economic Strategy.
A broad business base with stable, well paid employment; a focus on high quality jobs in engineering; science and technology; growth of established tourism, food, drink sectors.	LDP supports this aim by identifying employment land designations to support the requirements identified in the Moray Economic Strategy.
	LDP supports this aim through the Primary Policy PP1 Sustainable Economic Growth which supports proposals that assist in the delivery of the aims of the Moray Economic Strategy.
	LDP supports this aim by including a suite of Economic Development policies which help create conditions which support economic growth, sustain and create jobs and contribute to the well being and prosperity of the area.
Sufficient housing land to meet the Housing Need and Demand Assessment (HNDA), that will facilitate the provision of affordable housing, and to ensure high quality residential developments	LDP supports this aim by identifying housing land designations to meet strategic housing land requirements for 2013 to 2025 and ensure a five year effective housing land supply at all times. Over provision of HNDA requirements to provide flexibility.
	LDP supports this aim by containing policies to require new housing developments of four or more houses to provide a minimum of 25% of the total units as affordable housing.
	LDP supports this aim through Primary Policy PP3 Placemaking and supporting supplementary guidance which aims to encourage higher standards of urban design.
Attractive, sustainable environments where people will wish to live and work, which incorporate high quality design; green corridors and open spaces.	LDP supports this aim through Primary Policy PP2 Climate Change and supporting supplementary guidance which amongst other things aims to encourage development in sustainable locations and the creation of quality open spaces, landscaped areas and green wedges.
	LDP supports this aim through Primary Policy PP3 Placemaking and supporting supplementary guidance which aims to encourage higher standards of urban design.
	LDP supports this aim through Policy E5: Open Spaces which safeguards open spaces, and sets out the quantitative and qualitative requirements for new open space in development.

Vision	Action
<p>A policy context which supports growth and development, whilst at the same time protecting and enhancing the natural and built heritage, which are amongst Moray's prime assets.</p>	<p>LDP supports this aim through the Primary Policy PP1 Sustainable Economic Growth which supports proposals that assist in the delivery of the aims of the Moray Economic Strategy where the quality of the natural and built environment is safeguarded.</p>
	<p>LDP supports this aim through a chapter of policies relating to Environmental Resources. These contain policies to protect and safeguard the natural environment and built heritage. Other policies seek to protect the environment from activity that could have an adverse impact.</p>
<p>Good, efficient transport links to the rest of the country; with the encouragement of active travel as an alternative to journeys by car.</p>	<p>LDP support this aim through a suite of policies relating to Transportation and Accessibility which includes policies to promote the improvement of road, rail, air and sea routes in Moray and policies that aim to reduce travel demands and encourage active travel.</p>
<p>Renewable energy technologies; reduced carbon emissions; embedded within all development</p>	<p>LDP supports this aim through Primary Policy PP2 Climate Change and supporting supplementary guidance which requires proposals to reduce green house gas emissions including utilising sustainable construction techniques, and installing low and zero carbon generating technologies.</p>
	<p>LDP supports this aim through Policy ER1: Renewable Energy Proposals and ER2 Carbon Emission Reduction and associated Technical Guidance Note.</p>
