

What's in Scope

This document summarises the range of health and social care services within the management remit of the Moray Health and Social Care Partnership.

Services in Scope

Under the new legislation, The Moray Council and NHS Grampian are required to delegate some of their functions to the new Moray Integrated Joint Board. The following is a summary of the services delegated to the Integrated Joint Board for responsibility for planning and delivery:

- Inpatient hospital services provided by general medical practitioners
- Geriatric medicine services provided out with hospital
- Mental health services provided by health
- Substance misuse services provided by health
- Learning disability services provided by health
- GPs and primary care medical services
- Out-of-hours health care (e.g. G-Meds, etc.)
- District nursing services
- Community pharmacy services
- Services provided by AHPs in outpatients, clinic, or out with hospital
- Dental services
- Optician/optometrists (eye tests, eye health test, etc.)
- Continence services provided out with a hospital
- Kidney dialysis services provided out with a hospital
- Public health
- Social work/community care services and support for older people
- Services and support for adults with physical disabilities and learning disabilities
- Services and support for people with mental health problems
- Services and support for people with substance misuse issues
- Occupational therapy services (including aids/adaptations, reablement services, equipment and telecare)
- Adult support and protection
- Carers support services
- Day services (including day centres)
- Respite provision

There are other, hospital-based services, where integrated planning is essential and are included in the scope of our integration arrangements. Services provided by NHS Grampian which will be delegated to the board for strategic planning only:

- Accident and Emergency services provided in a hospital.

The following inpatient hospital services:

- General medicine
- Geriatric medicine
- Rehabilitation medicine
