21 January 2016

Dear Roddy,

Re: Mr Duncan Brown of Seaview Caravan Park, Kinloss, Forres, Moray, IV36 3TF

I recently met my above named constituent at Seaview Caravan Park which he owns. Mr Brown showed me around the park and his piece of ground across the road where he is seeking retrospective planning permission for a yard.

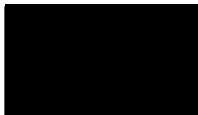

Mr Brown explained to me that he is trying to improve his business and showed me an area of the park where he has recently invested a lot of money. He also highlighted the lack of storage space he currently has to demonstrate his need for a yard to allow him to improve his business.

My constituent advised that he was unaware he would require planning permission for his yard because there is no building involved. As mentioned above, he is currently applying for retrospective planning permission for work that he had begun.

Due to the particular challenges that that area of Moray has faced following the loss of RAF Kinloss and the fact that it is always good to support local businesses when possible, I would be grateful if the Council could assist Mr Brown as best as possible in his endeavours.

Thank you for your attention and I would be grateful if you could let me know the outcome of Mr Brown's application.

Yours sincerely

Richard Lochhead
