

What you pay for your water and waste water services in 2020/21

**Scottish
Water**

Trusted to serve Scotland

We provide a vital service to more than 5 million customers, keeping water flowing to more than 2.5 million homes across Scotland.

Our focus is on delivering an excellent service, providing great value for money, and reducing our effect on the environment. We work 24 hours a day, 365 days a year to keep the water cycle running.

The charges you pay allow us to operate and improve water and waste water services in Scotland. You use these services in almost every aspect of your daily life.

We operate more than **2,000** water and waste water treatment works and over **60,000** miles of water pipes and sewers.

Every day, we deliver **1.46** billion litres of clear, fresh drinking water so it's there day or night whenever you turn on the taps.

We remove and treat **996** million litres of waste water every day to help protect the natural environment.

We carry out, on average, **1 quality test every 2 minutes[†]** on the water we supply to your taps.

[†] This is based on 2018 figures, the most up to date figures available at time of going to print.

This costs around £1 a day for the average household*.

* (The average household is between Council Tax Band B and Band C and has a combined bill of around £1 a day. Individual Water Supply and Waste Water Collection charges are less than £1 a day for all households (except for the individual Waste Water Collection charges for Band G households and the individual Water Supply and Waste Water Collection charges for Band H households.)

Promising to give you value for money

We work to deliver these essential services to you in an affordable and sustainable way. To help us make sure that we can continue to provide you with at least the same high levels of service that you currently receive, in 2020/21 the Combined Services charge for the average household will rise by around £3 from the amount last year.

Your water, your life

Water plays a vital role in our daily lives. From drinking tap water to cooking, cleaning or flushing, we use it virtually every moment, every day.

It's a precious resource and we are trusted to care for the water on which Scotland depends. But you can also play a part. There are lots of simple steps we can all take in and around the home to care for our water.

- Top up from the tap – use a refillable bottle and enjoy Scotland's great-tasting water fresh from the tap. It's good for the planet, your pocket and you.
- Don't flush wipes and other bathroom waste items that should be put in the bin, and recycle or put all cooled fat, oil and grease in the bin, not down the sink.^
- Save water, whatever the weather. It will help keep your energy costs down too.

To find out more, visit www.scottishwater.co.uk

^ Please check with your local Council/waste contractor for info on how to recycle or dispose of used fat, oil and grease in your area.

Keeping you informed

You can keep up to date about our work or service updates, such as having no water supply, in your area:

Visit: www.scottishwater.co.uk/updates

Text (SMS): If you would like to receive free texts (SMS)** please text the word '**Update**' with your postcode to **82228** (Example text: Update EH10 6XH).

Our services – your rights

Our customers and communities are at the heart of everything we do. We always aim to deliver on our promises and are always looking at how we can improve the service and value that we provide. It is important that we aim to provide you with a great customer experience – and that when we say we will do something, we do it.

We want you to be aware of our promises and your rights under our service standards. To find out more, visit www.scottishwater.co.uk/yourrights

Who regulates the water industry in Scotland?

The Water Industry Commission for Scotland is the economic regulator of the water industry in Scotland. They approve the levels of our charges. You can contact the Commission at www.watercommission.co.uk

Citizens Advice Scotland (CAS) represents the interests of consumers within Scotland's water industry. CAS can be contacted on **03454 04 05 06** or at www.cas.org.uk

The Drinking Water Quality Regulator (DWQR) monitors and regulates the quality of the water we deliver to you. The DWQR can be contacted at www.dwqr.scot

The Scottish Environment Protection Agency (SEPA) sets standards for and monitors waste water and other discharges into local streams, rivers and the sea. SEPA can be contacted at www.sepa.org.uk

Household Charges 2020/21

Your charges are based on the Council Tax Band for your home. For 2020/21 the Combined Services charge for the average household will rise by 0.9% from what you paid last year. The table below tells you what your charges are from 1 April 2020 to 31 March 2021.

Council Tax Band	Water Supply	Waste Water Collection	Combined Services
Band A	£138.24	£160.50	£298.74
Band B	£161.28	£187.25	£348.53
Band C	£184.32	£214.00	£398.32
Band D	£207.36	£240.75	£448.11
Band E	£253.44	£294.25	£547.69
Band F	£299.52	£347.75	£647.27
Band G	£345.60	£401.25	£746.85
Band H	£414.72	£481.50	£896.22

These charges apply to every household which has a connection to the public water supply, the public waste water network, or both.

Your water and waste water charges will be shown on your Council Tax bill, **even if you receive Council Tax Reduction**. Some Council Tax exemptions and discounts will also apply to these charges, such as single occupancy or if you are a student.

If your property has been altered to meet the needs of a disabled person, you may be entitled to a Disabled Banding Reduction on the charges you pay for your property.

Your local council bills and collects these charges on our behalf and you can find details of how to pay on your Council Tax bill. Please contact your local council for more information and help with payment options.

Important: If you receive Council Tax Reduction you must still pay a water and waste water charge for the services that you have at your home. However you will receive a reduction of up to 25% on the charges shown in the table above.
