FIN20-22.Serv- 5.2	Develop mainstream Participatory Budgeting (Carried forward from previous service plan)	28-Feb-2022	Progress on this action has been significantly impacted by the response to the Covid-19 pandemic. Of the planned projects the Coastal Fund was withdrawn, the playparks project has been delayed as was the housing revenue account (HRA) tenant's participation exercise. Work has progressed on Participatory Budgeting (PB) and we have completed a PB exercise to allocate £50k of funds for Care Experienced Young People. We are also developing PB exercises in conjunction with Lands & Parks department for Play Equipment Areas at 4 parks. Despite the good work being done we're still a long way from identifying 1% of the budget, which is our target. Consul is the preferred Scottish Government Online platform for use with PB. It allows discussion events to be undertaken and is also the main voting platform. The latest version is being developed to test the Artificial Intelligence aspects of its operation. However, the level of engagement has been a staff consultation, a smaller scale exercise	25%
