CLD Strategic Partnership
WORK PLAN

Partnership CLD Work Plan

Individually the CLD Strategic Partnership members will continue their own focussed work and share this so there is a collective picture of learning opportunities and community activity. The real value of the partnership is through analysing data and creating actions or accessing and progressing opportunities through **collaborative working** so we can make a difference to communities.

The insight from the inequalities case studies carried out by the [Fairer Moray Action Group](#) reinforces the daily challenges people face before they contemplate learning or community activity. The partnership will respond to emerging need as Covid tiers and access to facilities change and as a result this plan is a live document which can be adapted as required

The work plan is built around the strategic priorities highlighted in the one page summary visual. We have referred back to the cross cutting themes and LOIP priorities in relation to our three priorities but not for the workforce related priority 4 or the governance related actions as these are more inward focussed than with communities and learners.

- **Priority 1:** Learning for All
- **Priority 2:** Active Citizens and Communities
- **Priority 3:** Participation & Community Voice

Cross-cutting themes:

1. Addressing impacts of rurality & poverty
2. Improving mental health & wellbeing
3. Addressing social isolation & helping people to reconnect.

Linking back to the LOIP

The work plan outlines the action and links it back to the Local Outcomes Improvement Priorities (LOIP) relating to the Delivery Framework for the Empowering and Connecting Communities strand
