

Community Portgordon Post – Biggest issue was ice on the road. Pringle remarked that in past years people all helped and didn't leave it to the Council. Donald reported that he and others clean their own pavements but Moray Council clear the roads.

**Fochabers** – An update on the Xmas lights. The trees have grown over the lights £5000 was raised for new lights and the Village Association put them up last weekend. Roger mentioned the Health Walk every Monday then a visit to the cosy café afterwards. There is also an autumn club which is held regularly. The previous owner of the running shop has retired and the new owner is not changing the shop and will be selling the same goods. Donald brought up the dangerous junction at East Street. A SLOW sign was put up and nothing else done. There is still concerns about this and no one has been contacted. High Street – The parking on the High Street was discussed and various ideas were suggested and will be discussed again at our next meeting. A Resilience booklet has been received in the post by everyone. This notes the precautions that should be taken in an emergency such as flooding etc.

**SpeyBay** – No representative no report

**Date of Next Meeting: 31 January 2024 at 7.00pm by Zoom**
