

FOI Request - Teacher Employment - 101003901072

Q4 & 5

	Complement of Teachers Required	Affect on Subject Choice
Buckie High	This would be dependent on uptake of subjects and the timetable. A rough indication would be Biology - 3FTE Chemistry - 3 FTE Physics - 3FTE Maths - 5.8FTE Technological Education - 3 FTE Computing - 1FTE	Computing - courses not always able to run
Elgin Academy	Varies from Year to Year according to changes in roll and pupil choices.	This year, very little. Varies from year to year.
Elgin High	Biology - 3 FTE Chemistry - 2.5 FTE Maths - 6 FTE Technological Education - 3.5 FTE Computing - 1 FTE	We try to ensure we can offer subjects to support the pathway of the students
Forres Academy	Maths - 3 FTE	The school is now in its 6th consecutive year of being understaffed in Maths, currently by 3 FTE. Maths is compulsory until end of S4. We have had to employ primary qualified teachers to deliver in S1/2. It is not the choice being impacted, it is the attainment of the young people.
Keith Grammar	Biology - 2 FTE Chemistry - 1 FTE Physics - 1 FTE Maths - 3.8 FTE Technological Education - 2 FTE Computing - 1 FTE	At the moment we are fully staffed in the above subjects so there is no impact.
Lossiemouth High	Technical Education - 0.5 FTE	Technical - pupils getting inserts rather than weekly lessons.
Milne's High	Maths - 0.8 FTE Computing - 1 FTE Physics - 0.4 FTE	Changes to course for pupils in Computing and then changes again when we could not get technical provision as well. Introduction of additional Numeracy/Literacy to absorb BGE classes not able to gain Technical/Computing classes.
Speyside High	Biology - 1.6 FTE Chemistry - 1.4 FTE Physics - 1 FTE Maths - 3 FTE Technological Education - 1 FTE Computing - 1 FTE	NIL
