Standards

For Children

Standard 1: You are the most important person in our work

- When we make decisions about you, we will try to ask you what you think
- We will talk to your family and people who know you best
- We will do our best to help keep you safe
- We will make sure we write this down

Standard 2: We try to help you now and in the future

- We will try to help by thinking about every part of your life

Standard 3: We only talk to people if we think they can help you

- We have a leaflet about this 'Consent to Share Information – Information for Children'

Standard 4: We want to make sure you get to be all you can be

- We will look at what's working in your life and try to do more of this
- It makes no difference what age you are, where you live, what your family's like or if you're a boy or a girl
- We will do our best to help you

Standard 5: We get the best team of people to help you

- We will make sure we do everything we said we would do
