

getting
it right
for every child
in Moray

Standards

For Young People

Standard 1: You are at the centre of the work that we do

When we take decisions about you, we will ask you what you think at all times, if you are able to understand your situation. We will make sure we write this down.

Standard 2: We try to help you now and in the future

We will try to help by thinking about every part of your life and by helping when you need it now and in the future too.

Standard 3: We only talk about you with people who need to know

You can find out more about this in the leaflet 'Consent to Share Information – Information for Young People'.

Standard 4: We try to keep all children and young people in Moray safe

In every organisation, there is someone called a Child Protection Officer who can talk to you about staying safe.

Standard 5: We want to make sure you get to be all you can be

We will look at what's working in your life and try to do more of this. It doesn't matter what age you are, where you live, what your family's like or if you're a boy or a girl.

Standard 6: We always try to find the best way to help you by finding a solution

Everything we do is to make a plan to find a solution that works.

Standard 7: We get the best team of people to help you

We will get together in a team to work just with you to make a plan that gets you the right help at the right time.

Standard 8: We do the best we can to help you

We will each make sure we do everything we said we would do.
