

Recycling Points

Recycling waste means using waste materials to manufacture other products of an identical or similar nature.

Recycling Points are small stations that are often found in car parks. Each point has a collection of bank containers into which specific recyclates (materials that can be recycled) can be placed.

WHO

Recycling Points have been provided to allow YOU to recycle more of **your** household waste.

WHAT

You can take the following recyclates to your local RECYCLING POINT:

- **Books**

- **Food and drinks cans**

- **Glass bottles and jars**

- **Paper and cardboard**

- **Textiles**

HOW

Below is a list of all the Recycling Points in your area - it shows WHERE they are and WHAT you can take there.

Please help us to recycle more materials more often by placing only the correct material in each Recycling Point.

Your Recycling Points are open 24 hours a day. Please be courteous to nearby residents and try not to use the Recycling Points during unsociable hours.

Please do not leave litter at the Recycling Points. Take empty bags and boxes home with you.
