26 February 2010

Dear Sir

**Proposed New House at Site adjacent to Upper Forgie Farm, Aultmore, Keith**

Further to your e-mail dated 19 February 2010 please find enclosed for your attention two copies of our drawing numbered 0609/01-10A with regard to the above.

We have revised the drawing in order to show the amendments required by the Roads Department and the formation of a landscaping belt to the North East and South East of the site. We are of the opinion there already is a backdrop to the site. The site is on an upslope and we feel that due to the levels on, and around the site the mature band of trees approximately 90 metres up the field does provide a very adequate backdrop. In addition the proposed landscaping belt will enhance this situation.

We would be pleased if you would consider these amendments prior to preparing your report.

We trust all is in order however, should you require further information please do not hesitate to contact our Michael Urquhart.

Yours faithfully

  
MICHAEL URQUHART
