Notice of Review: Planning Application 14/01004/PPP

Dear Mr Westmacott,

Having looked at the review information presented nothing appears to have changed from the original submission and so all my original comments for refusal remain.

Attempting to purely force permission based on precedent does nothing to remove my concerns, as all these properties are not situated on my boundary and therefore have no direct bearing on me. As far as I am concerned, placing any property in the centre of the rear of 7 King Street will be clearly overbearing for the adjacent properties.

The review body is welcome to view the proposed site and its position relevant to the adjacent properties from my back garden at [REDACTED].

There still remains, a lot of available properties being built in new estates around Elgin so there is no shortage of available housing in these more suitable designated areas.

Yours sincerely,

Mrs Isabella Innes
