

A Reflective Toolkit to support the implementation of “**Ambitious to Achieve Excellence Together: A Strategy for raising attainment and achievement”**

Introduction

Our Moray Council Strategy for raising standards of achievement and attainment is a key document for Moray in terms of setting our sights high for our staff, our young people and their parents/carers. All our young people in our schools and in our pre school partner centres should have every single opportunity to reach their full potential both within and out with formal school settings. As a local authority, we have a duty to ensure this is the case and to ensure we focus the efforts of our staff, young people and their parents/carers on this vital agenda.

Our strategy is centred on expectations and entitlements. These are categorised into three groups;

- Expectations and entitlements for learners
- Expectations and entitlements for parents/carers
- Expectations and entitlements for staff and partners

This reflective toolkit is designed to make our strategy “come alive” by asking specific questions of learners, parents/carers and staff in terms of how good current provision is in terms of promoting a culture of ambition to succeed. Hopefully, by using this toolkit with management teams, staff groups, pupils and parent councils, Head Teachers will be able to ensure that a culture of **Ambitious to Achieve Excellence Together** is being developed and ultimately embedded in the life, work and ethos of schools and centres across Moray. The toolkits should allow Head Teachers to identify good practice to share with colleagues, but also to identify gaps where a school may need to focus additional efforts and/or resources.

This toolkit can be used in a variety of ways. For example, a Head Teacher may wish to focus on raising aspirations at a particular stage in the curriculum or in a particular curricular area. S/he can use the reflective questions with staff, parents and young people at that particular stage or within that curricular area to look at current practice and to action plan for the future. Equally, a school may have concerns that parents have low aspirations for their children and may choose to use the sections of the toolkit which are designed to look at parental involvement as a basis for making improvements. There is no specific order for using the toolkit, school leaders, staff and others can dip in and dip out as appropriate. What is vital, is that where gaps are identified, appropriate actions and outcomes can be identified to lead to sustainable improvements for learners.

In addition to our Moray reflective toolkit, the grid below produced by the Association of Directors of Education Scotland (ADES) shows how culture, ethos, vision, leadership, the strong professional practice of teachers and sound partnerships with parents, young people and communities can all contribute at

class, whole school and education authority level in terms of raising the bar and achieving substantial improvements for young people. This is underpinned by the belief that every child and young person matters and can achieve and it is essential that every single teacher in Moray signs up to this.

Raising Attainment, Improving Life-chances: Attributes of Success

Classroom level		School Community level	Education Authority (EA) level
Culture, Ethos and Vision	<p>A classroom where there is a culture of respect, care and high expectations for every child. 	<p>A classroom where lessons are delivered enthusiastically and every attempt is made to make learning relevant and motivating for pupils.</p>	<p>An EA which develops well-researched programmes across the school and associated school group to improve pedagogy amongst teaching staff e.g. through teacher learning communities.</p>
	<p>A classroom where learning is well planned and differentiated for all children to ensure that individual's needs are met.</p>	<p>A school community where the curriculum is designed to meet the needs of all learners, including the more able and those whose prior attainment and earlier experiences are not positive.</p>
	<p>A classroom where learning intentions and success criteria are shared so that pupils understand them and where all pupils know what it is they are expected to be learning and what success will look like.</p>	<p>A school where systems are devised which ensure that teachers use summative assessment formatively and where this happens consistently.</p>

APPENDIX 2

	A classroom where teachers are skilled in identifying next steps in learning for each learner on a regular basis.	A school where pupils are strongly supported to make appropriate course choices based on "cautious optimism" for all pupils.
	A classroom where teachers use contextual assessment to manage and turn to the learners' advantage the variables in the learning situation.	A school community that ensures that the system of child-centred planning stretches all pupils to make well-paced progress in their learning.
Successful Learners	A classroom where good teacher management skills are evident in a business-like atmosphere conducive to good learning where pupils feel safe and valued and know the boundaries of engagement.	A school community where the views of pupils are listened to, heard and acted upon.
	A classroom where learning intentions and success criteria are shared so that learners understand what it is they are expected to be learning and what success will look like.	
Parents, carers and the wider community	A classroom where the teacher actively seeks to engage the parent/carer in their child's learning, believing that they have a key role in raising attainment.	A school community where the views of parents/carers are listened to, heard and acted upon.
	A classroom where targets for pupils are agreed and discussed and where strategies to improve further are identified, involving parents, carers and supporters.	A school community which develops systems and exploits every opportunity to involve parents, carers and the wider community to raise attainment and promote achievement by bringing the outside world into the classroom and the learner into the wider world.
	A belief, modelled by all teachers and leaders, that every child or young person matters and can achieve	

In 2012, Education Scotland also published some reflective questions for schools and practitioners which can be used by school staff when considering how they approach attainment in their own particular setting. This can be accessed at www.educationscotland.gov.uk/images/RaisingAttainmentLeaflet_tcm4-71135.pdf

I hope all schools find this toolkit useful in reflecting on their own practice as leaders and teachers and also in their work with young people and their parents/carers.
