

Motion to Policy Committee re Zero Waste Strategy

That Committee agrees that Moray should build upon recent successes in sustainable waste management by declaring a commitment to landfill zero municipal waste by 2020.

That Committee, therefore, instructs the Director of Environmental Services to submit proposals for interim targets and a detailed three year plan for the period 2009/10 to 2011/12 in pursuit of the strategy to the appropriate Committee(s) at the earliest opportunity.
