1. INTRODUCTION

- 1.1 This service plan sets out the priorities of Financial Services for 2018 to 2020 and the context within which the service operates.
- 1.2 The service plan supports the objectives of the Moray Community Planning Partnership's Local Outcome Improvement Plan and the Moray Council's Corporate Plan. The main focus of the service plan is on the Council's priority to work towards a financially stable council that provides valuable services to our communities, but the work of the service supports the full range of Council activities.
- 1.3 The specific actions planned for 2018/20 are set out in **Appendix B** to this report, along with associated timescales.

2. REVIEW OF THE PAST YEAR

4 SERVICE PLAN OBJECTIVES

- 4.1 The main objective for Financial Services is to support the good stewardship of public funds by the Council within the current challenging financial environment. The Council's priority of achieving financial stability sits within this objective. Financial Services has a lead role in the financial management of the Council's revenue and capital budgets and ensures that robust budgetary control procedures are in place.
- 4.2 The main outcome Financial Services must deliver is to make payments accurately and on time. This includes payment of salaries and expenses to staff and elected members; payments to HMR&C, and payments to the council's suppliers and contractors. To achieve these outcomes efficiently and economically Financial Services make use of technology and constantly seek to automate and improve processes.
- 4.3 Other service outcomes include managing the council's cash flow to have sufficient cash to make these payments and investing any cash balances prudently; achieving a balanced budget; producing unqualified annual accounts; providing timely and accurate financial advice and returns; supporting the effective procurement of goods and services.

5 HOW WE DEMONSTRATE CONTINUOUS IMPROVEMENT

- 5.1 The Council's continuous improvement framework will help the service to identify where it can be more effective, efficient and responsive. The table in **Appendix C** details the various management tools which the Council has in place to help demonstrate continuous improvement and how Financial Services uses them.

It is intended that the table should:

- Act as a checklist for the various management tools for future
- Help identify gaps and standardise practice where appropriate
