5. Matters Arising from the Minutes of the December 2025 meeting

Tourism in Keith - SCOTO have not responded to LG's letter.

Action = LG to write again to SCOTO on this matter.

Seafield Avenue Railway Bridge – Moray Council are unable to install steel barriers at this bridge because of the lack of a footpath and the narrowness of the road at the bridge. They are currently applying for the funding to install specialist kerb stones at the bridge, the kerb stones in question are designed to deflect the wheels of vehicles away from the bridge and thus prevent impact with the bridge structure. Keith & Dufftown Rlyw Association, (KDRA), are reluctant to carryout permanent repairs to the bridge until mitigating factors are in place, the temporary barriers will remain in place and the KDRA will monitor their condition until such time as permanent repairs can be made.

KDRA has supplied Moray Council with details of the weight limits on all their bridges, which includes Seafield Avenue, so Moray Council can install the relevant weight restriction signage.
